

# Stand For Automatic Phoropter Console

Stand specifically designed to support the console of the digital phoropter.

The base, made of laminate wood, is provided with four adjustable feet.

The inclined column allows an optimal use of the console.

Both the laminates of the base and the colours of the column are available in all the same colours of the refraction units.

## Features and standard equipment:

- Base of grey laminate or, on demand, of either dark grey or wood laminate and provided with four adjustable feet.
- Inclined column and metal plate painted in either light grey or white or grey or honey grey colour.

## Accessories and special versions:

- Inclined column and metal plate painted in polished metallic grey, or polished metallic green, or polished metallic light blue.

## Dimensions:

- Height: 70 cm
- Base: 32x38 cm (LxD).
- Plate: 30x30 cm (LxD)

## Product codes:

- Art. 63C-L: in light grey colour.
